

Clean Water Revolving Fund Drinking Water Revolving Fund

IUP Approval Notice

To: Local Governments with Water Infrastructure Projects on the 2012 Intended Use Plans
for the Clean Water Revolving Fund and Drinking Water Revolving Fund
Other Interested Parties

On September 28, 2011 the Minnesota Public Facilities Authority (PFA) approved its 2012 Intended Use Plans (IUPs) for the Clean Water Revolving Fund (CWRP) and Drinking Water Revolving Fund (DWRP). The IUPs identify the projects and activities the PFA intends to fund from the CWRP and DWRP in state fiscal year 2012 (July 1, 2011 to June 30, 2012).

The IUPs are available on the PFA webpage at www.positivelyminnesota.com/pfa under “PFA Infrastructure Funds and Programs” and then either “Clean Water Revolving Fund” or “Drinking Water Revolving Fund”.

Municipalities with one or more projects on either IUP must now submit a loan application to the PFA if they haven’t already done so. Loan application forms and instructions are available on the PFA webpage identified above. For a paper copy contact the appropriate loan officer shown on the enclosed map. **Note: Some of the PFA loan application materials have recently changed. Please be sure to use the most recent documents dated September 2011.**

In addition to meeting the PFA loan application requirements, municipalities must submit project plans and specifications to either the Minnesota Pollution Control Agency (MPCA) for clean water projects (wastewater or stormwater) or the Minnesota Department of Health (MDH) for drinking water projects and meet certain environmental review requirements. Projects must meet all technical and environmental review requirements and be certified by the MPCA or MDH before the PFA can make a loan.

Note: Submittal deadline. To maintain funding eligibility for FY 2012, the PFA loan application and project plans and specifications must be submitted to the appropriate agency by **March 28, 2012.**

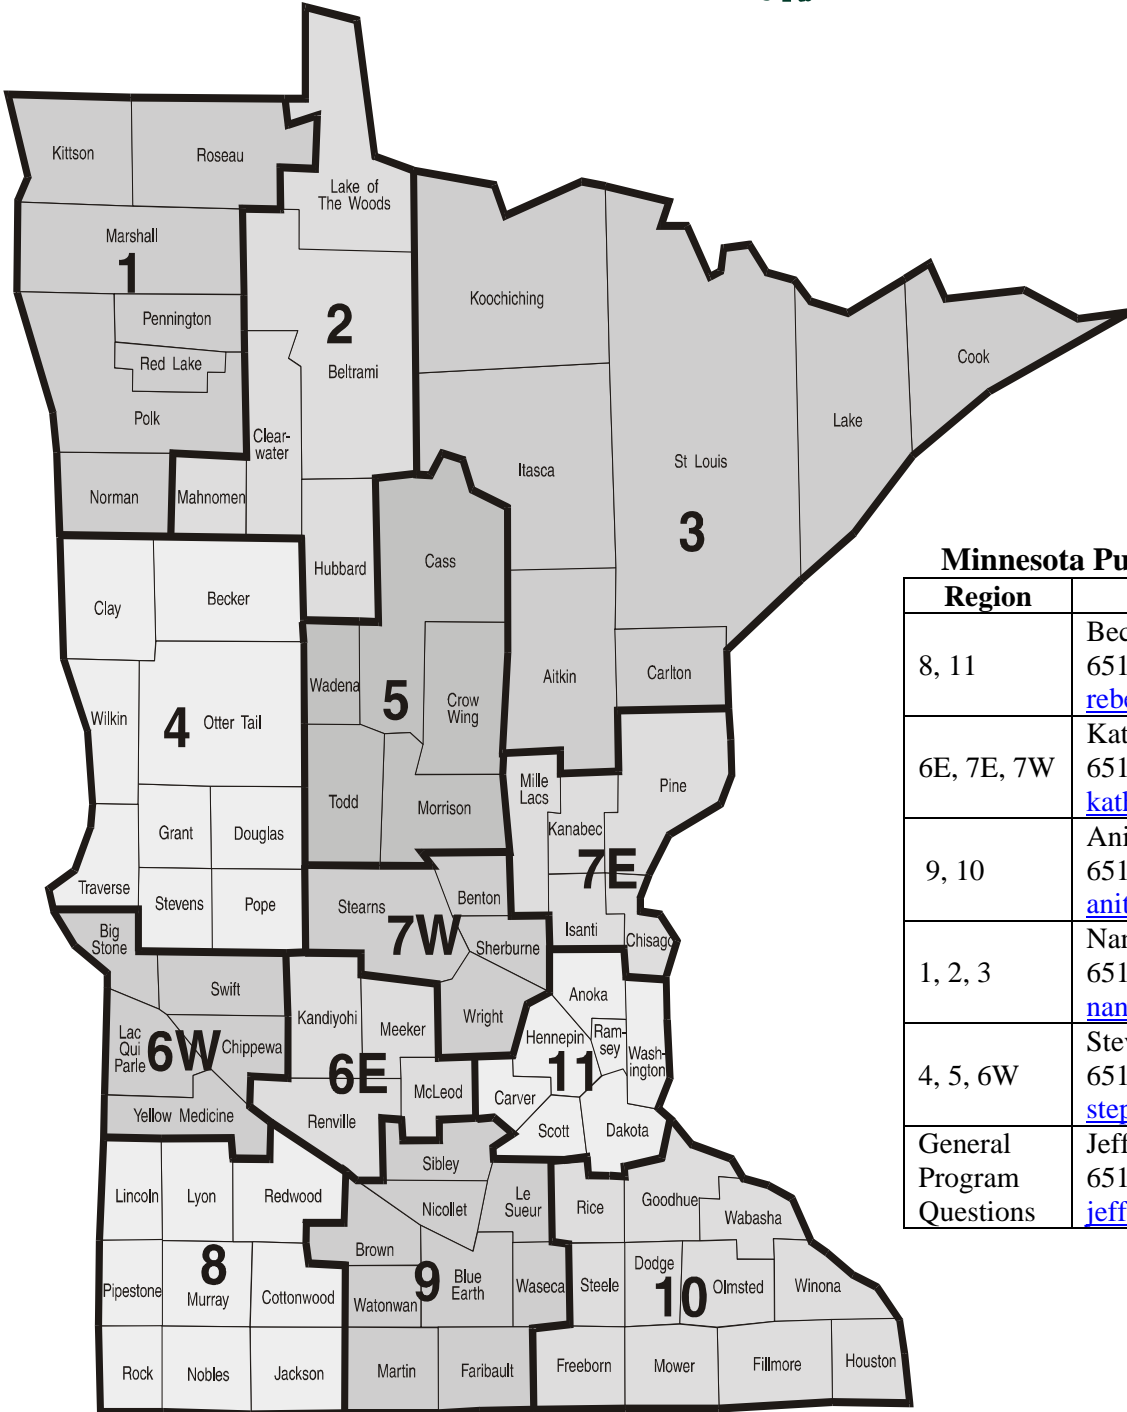

If you have any questions about the loan application forms and process, please contact your PFA loan officer shown on the enclosed map. Questions about the environmental and technical review process should be directed to the assigned review engineer at the appropriate agency, or Bill Dunn at the MPCA (651-757-2324, bill.dunn@state.mn.us) or Chad Kolstad at the MDH (651-201-3972, chad.kolstad@state.mn.us).
